Deposit Account

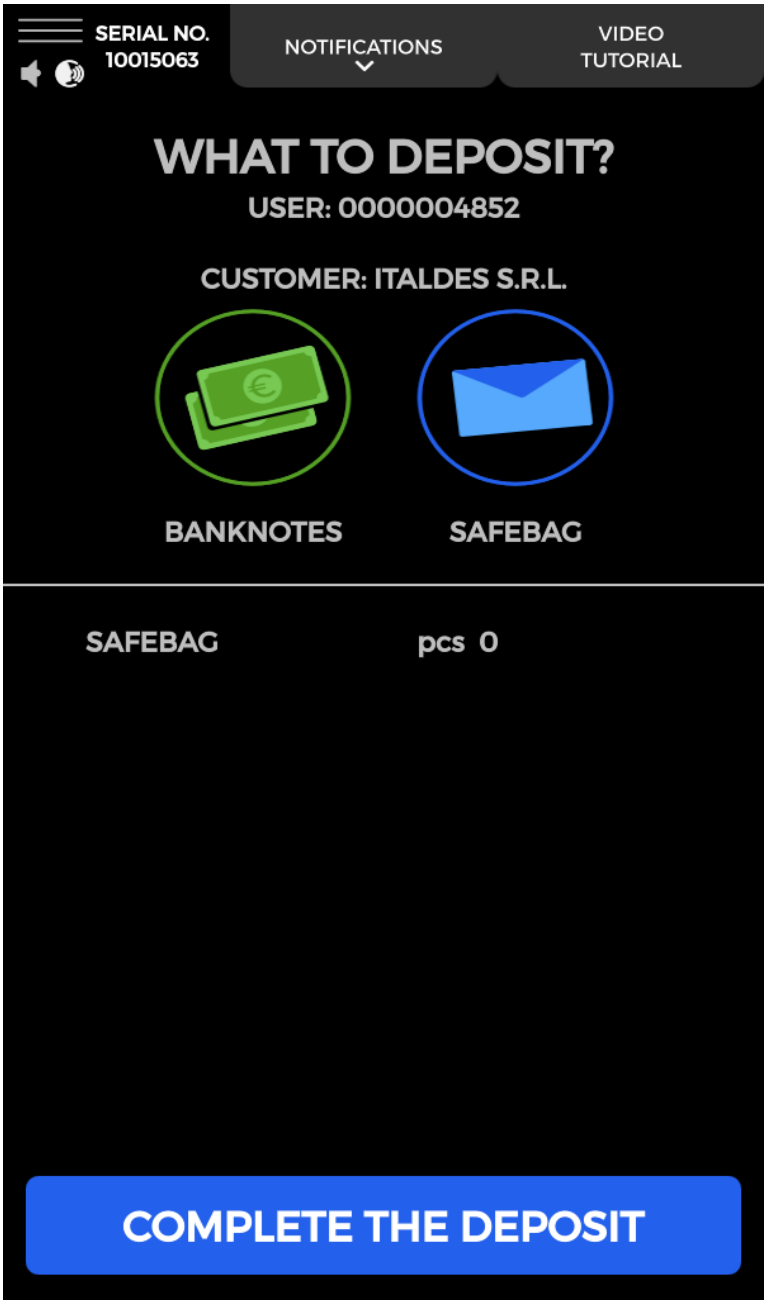

Introduction

Once you have logged in, **Login** will take you to the deposit session. Where you can choose what to deposit:

- "**BANKNOTES**" To deposit using the Acceptor
- "**SAFEBAG**" to deposit valuables using Safebags (sealed envelopes)

The value of **Banknotes** deposited using the Acceptor is credited upon completion of the deposit. Valuables deposited using **Safebags** are credited after verification in the counting room.

Tap **COMPLETE DEPOSIT** to end the deposit session.

Positioning of banknotes

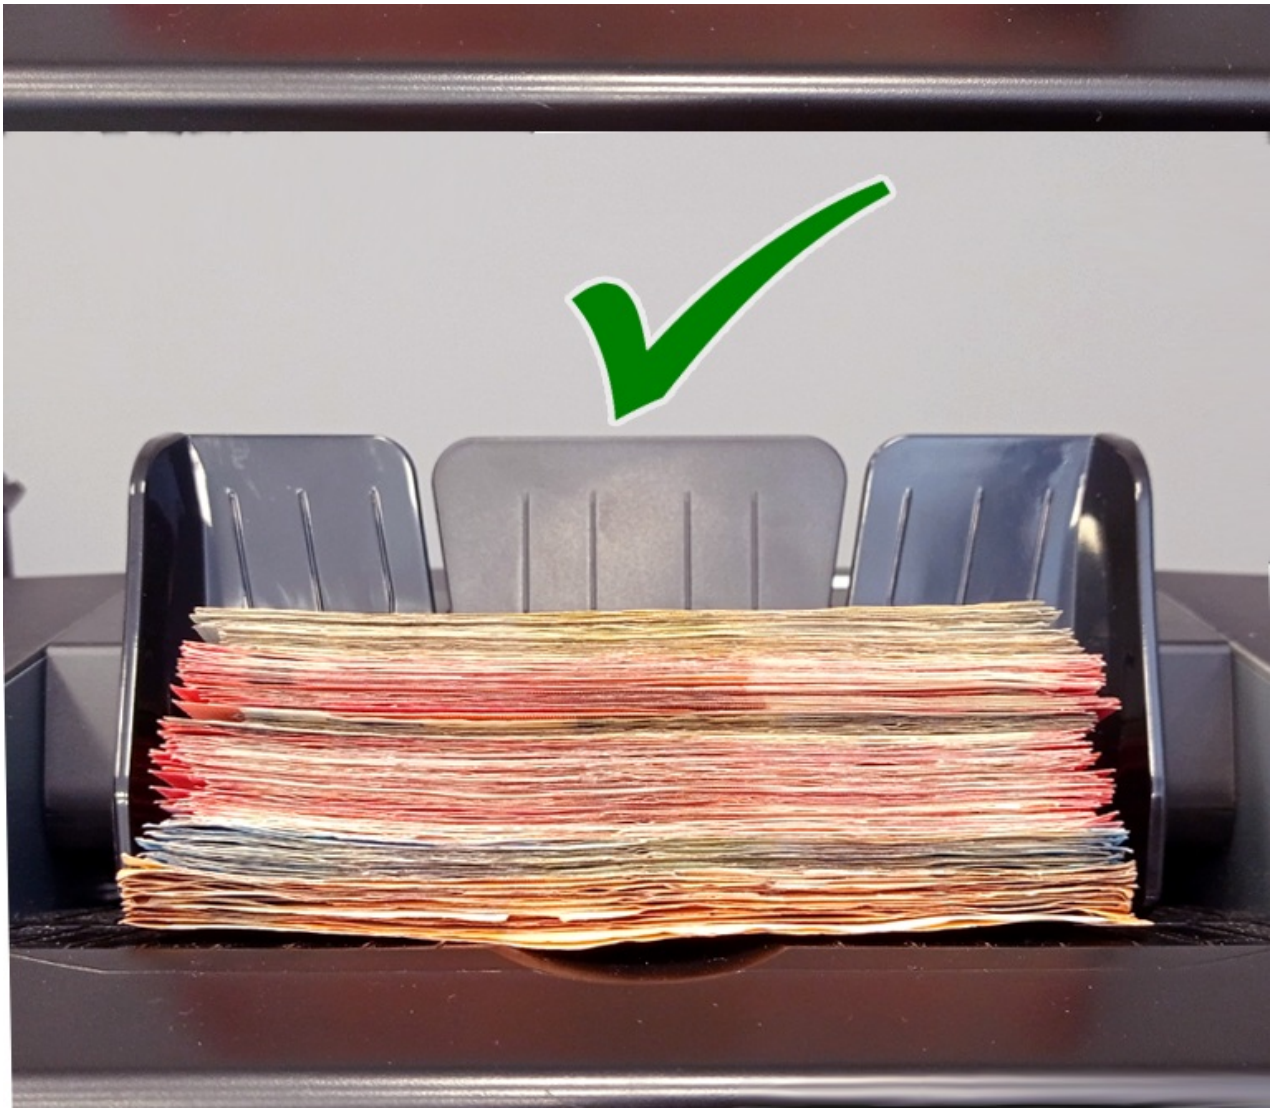

Instructions on how to correctly place bills on theacceptor tray.

Align the bills

Once placed on the tray, do not leave the bills free to move sideways; move the note-aligning flaps to keep the bills aligned. **Note:** The flaps should NOT be too wide, but not too narrow either, as this would prevent the acceptor from picking up bills from the tray.

Arrange the bills parallel to the tray

Arrange the bills parallel to the tray. Do not insert them into the slot where they will enter the acceptor.

Do not place folded banknotes

Avoid placing banknotes folded or curved trying to make it as much as possible possible linear with the tray.

COMPLETE THE DEPOSIT

Upon completing the deposit, a receipt for the deposited banknotes and registered Safebags will be printed.

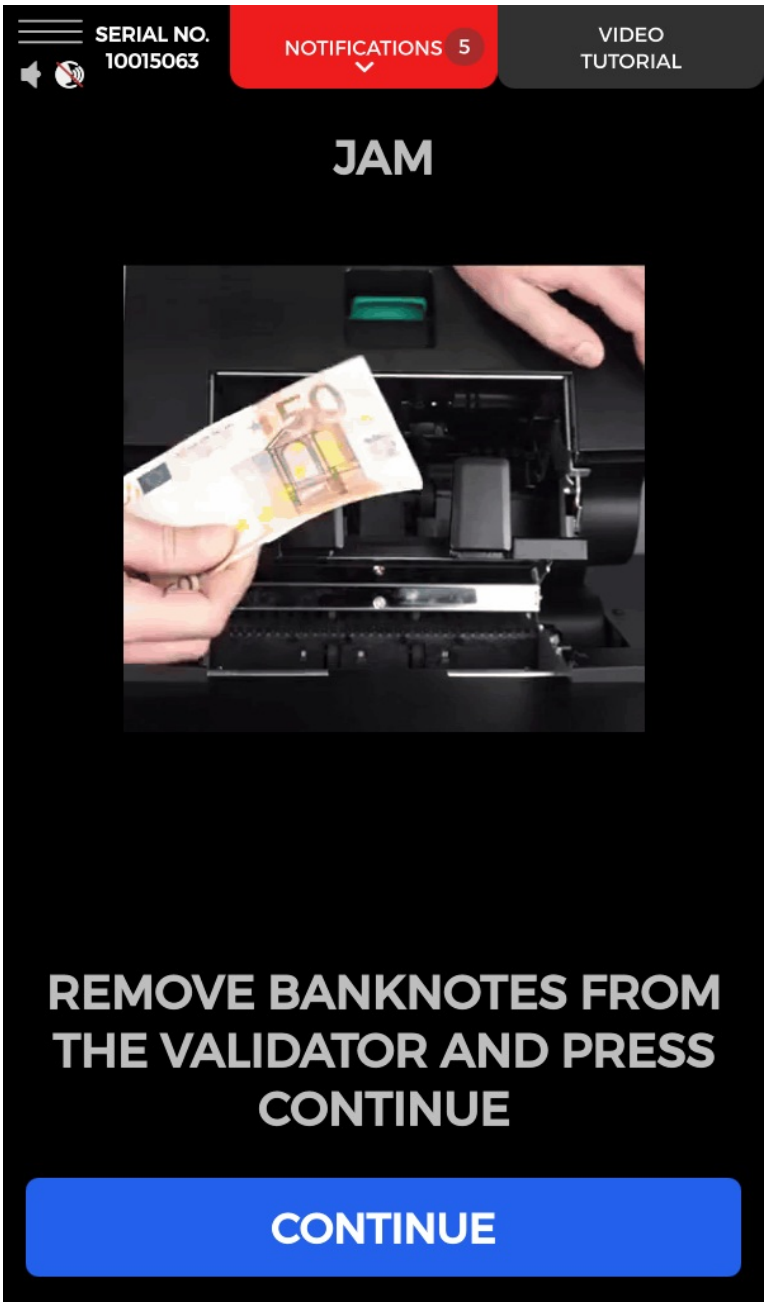

Jam

Deposit Jam

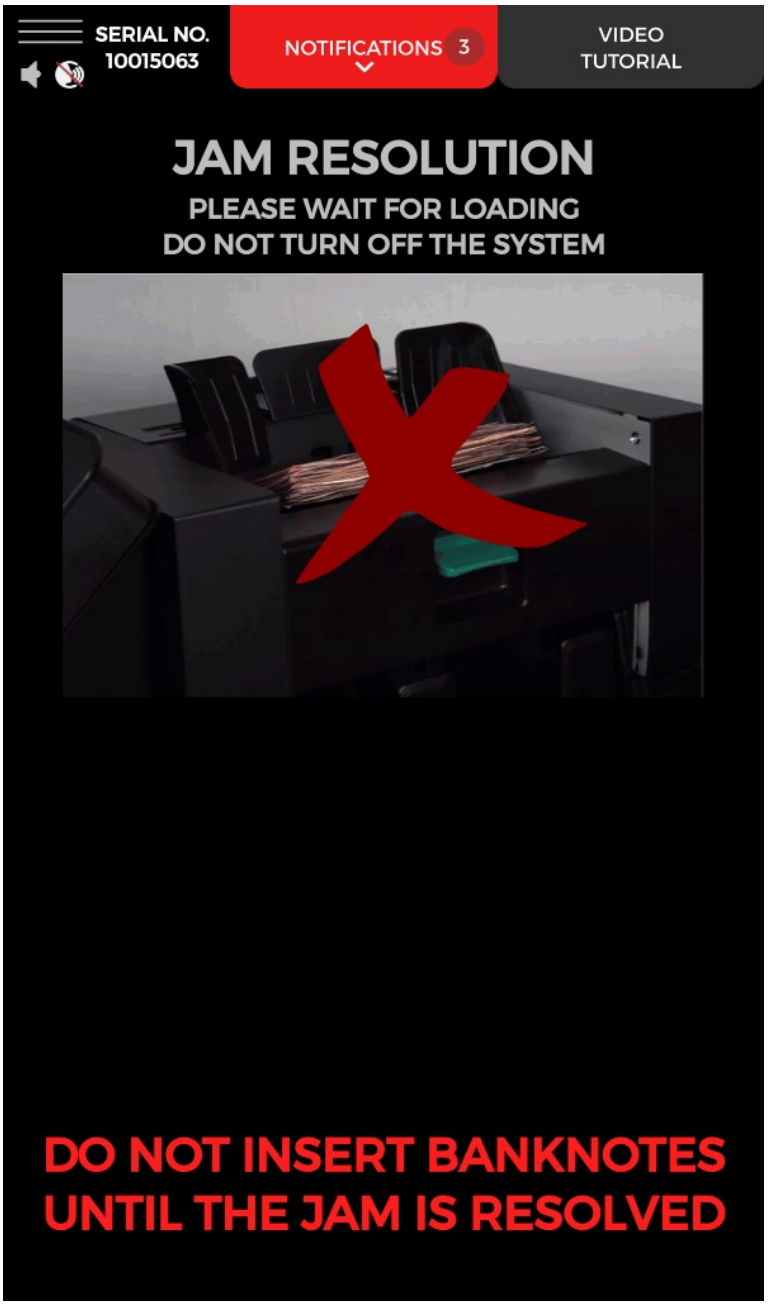

If a jam occurs during a deposit, the voice prompt will prompt you to Remove any banknotes still stuck inside the acceptor, displaying a video showing how to retrieve them.

Once all the banknotes have been removed and the acceptor slots are closed, select the **"CONTINUE"** button to return the smart safe to operation and continue with the deposit.

Jam Clearing

During the jam clearing procedure, it is necessary to avoid inserting banknotes until the jam is completely cleared. You must also wait for the loading process to finish, and absolutely avoid turning off the system to avoid compromising the recovery process.

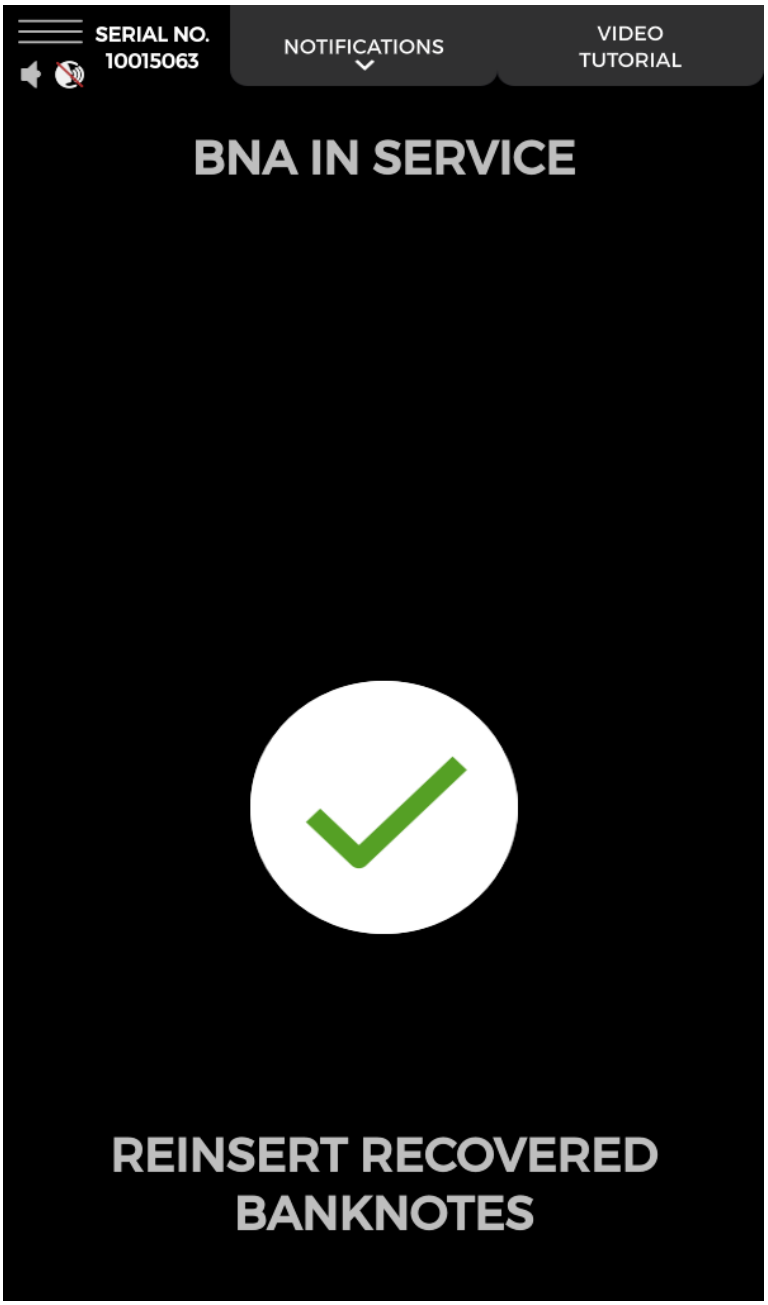

Continuous jam

If the problem is not resolved, carefully recheck all compartments and press **"CONTINUE" again**
If the problem persists, see page **Jam Unresolved tab.** Otherwise, continue below.

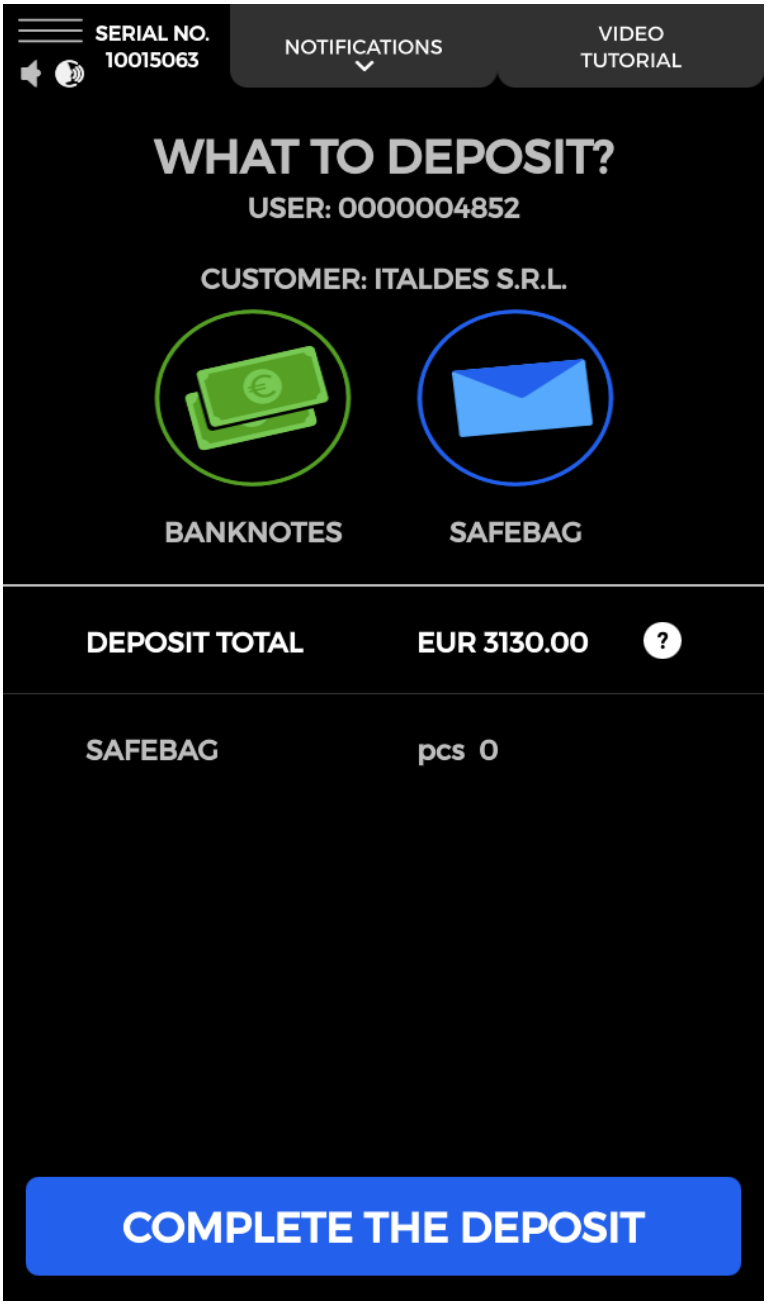

BNA OPERATIVE

Once all the banknotes have been removed and the "**CONTINUE" button has been pressed, the smart safe will restart. If the procedure is successful, the BNA OPERATIVE screen will appear.**

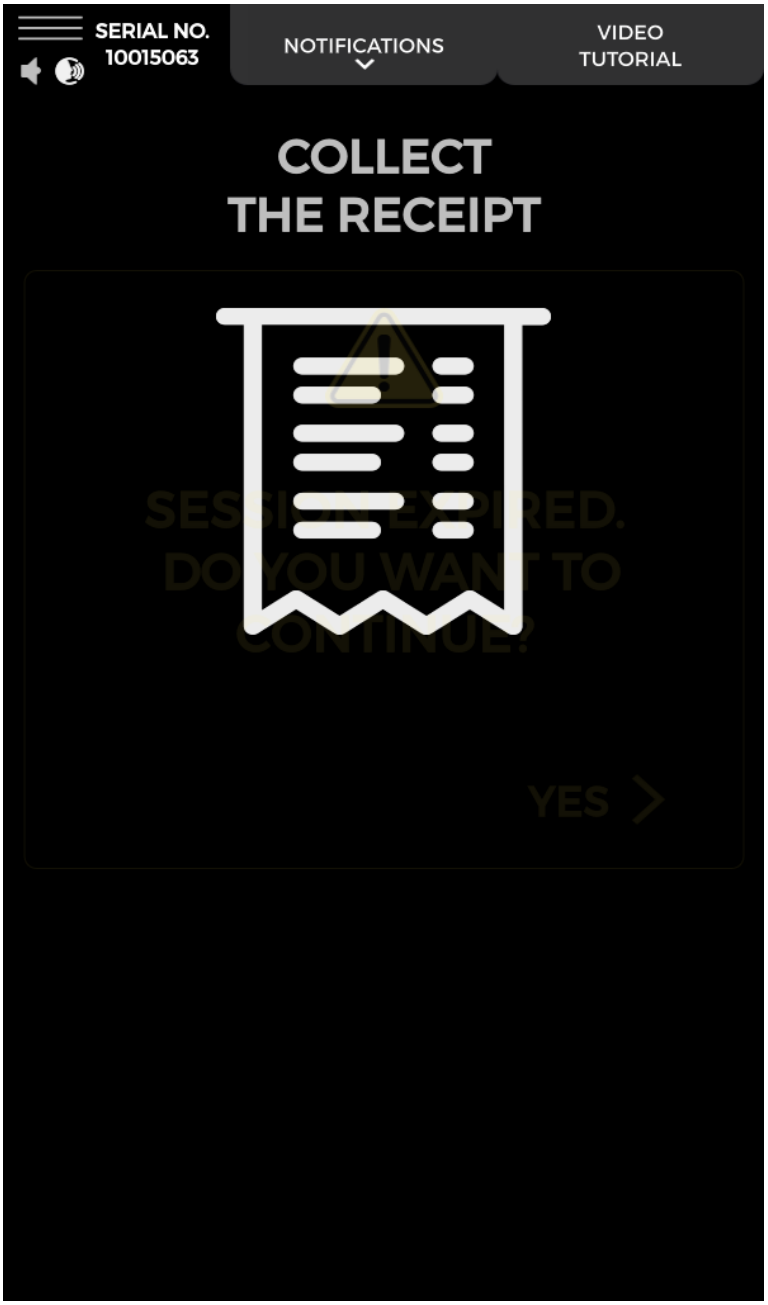

Deposit completion

When you have finished depositing your assets, tap "**COMPLETE DEPOSIT**."

Receipt Collection

Once the deposit is completed, a receipt for the deposited amount will be printed.

Receipt

If a jam occurs during the deposit process, a notification of this event will appear at the bottom of the deposit receipt.

ATTENTION

There is a jam
Verify that there are no
banknotes in the validator.

Any accounting differences will be
verified during the reporting phase.
