Deposit Account

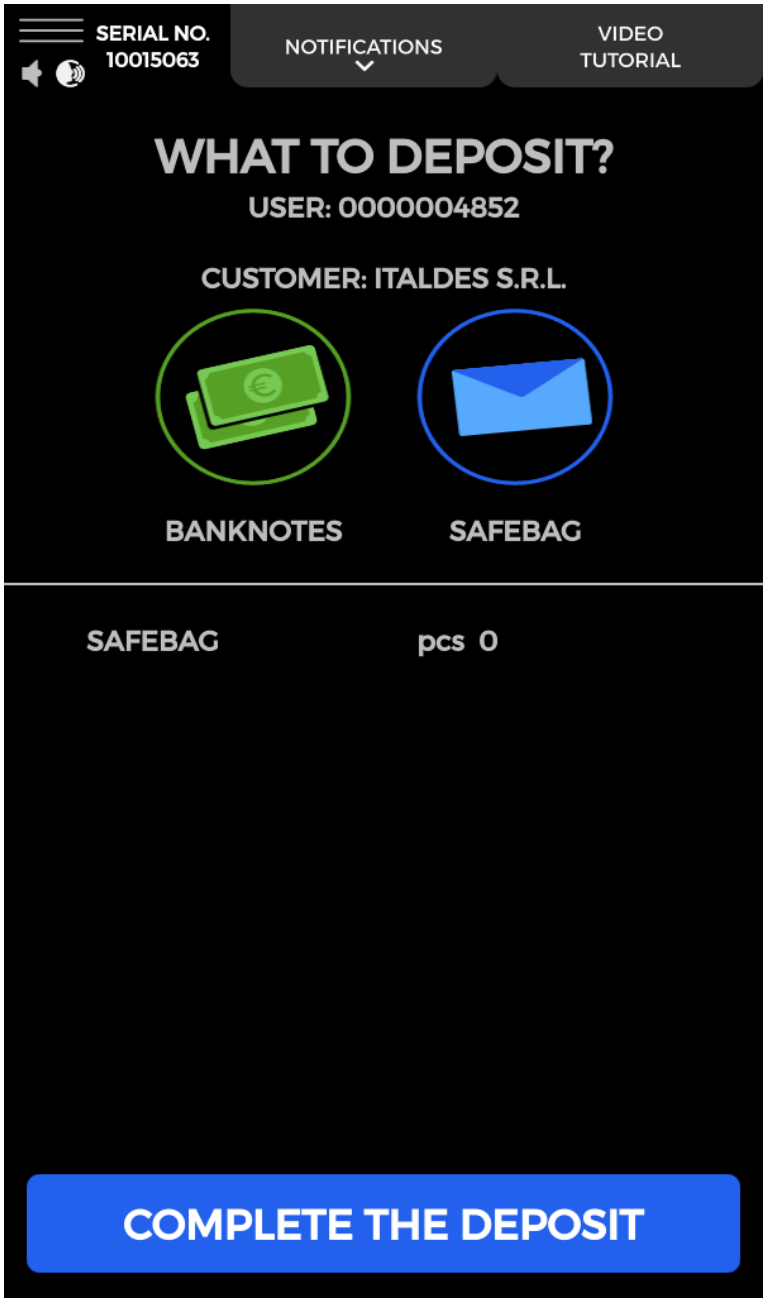

Introduction

Once you have logged in, **Login** will take you to the deposit session. Where you can choose what to deposit:

- "**BANKNOTES**" To deposit using the Acceptor
- "**SAFEBAG**" to deposit valuables using Safebags (sealed envelopes)

The value of **Banknotes** deposited using the Acceptor is credited upon completion of the deposit. Valuables deposited using **Safebags** are credited after verification in the counting room.

Tap **COMPLETE DEPOSIT** to end the deposit session.

Positioning of banknotes

How to place the banknotes

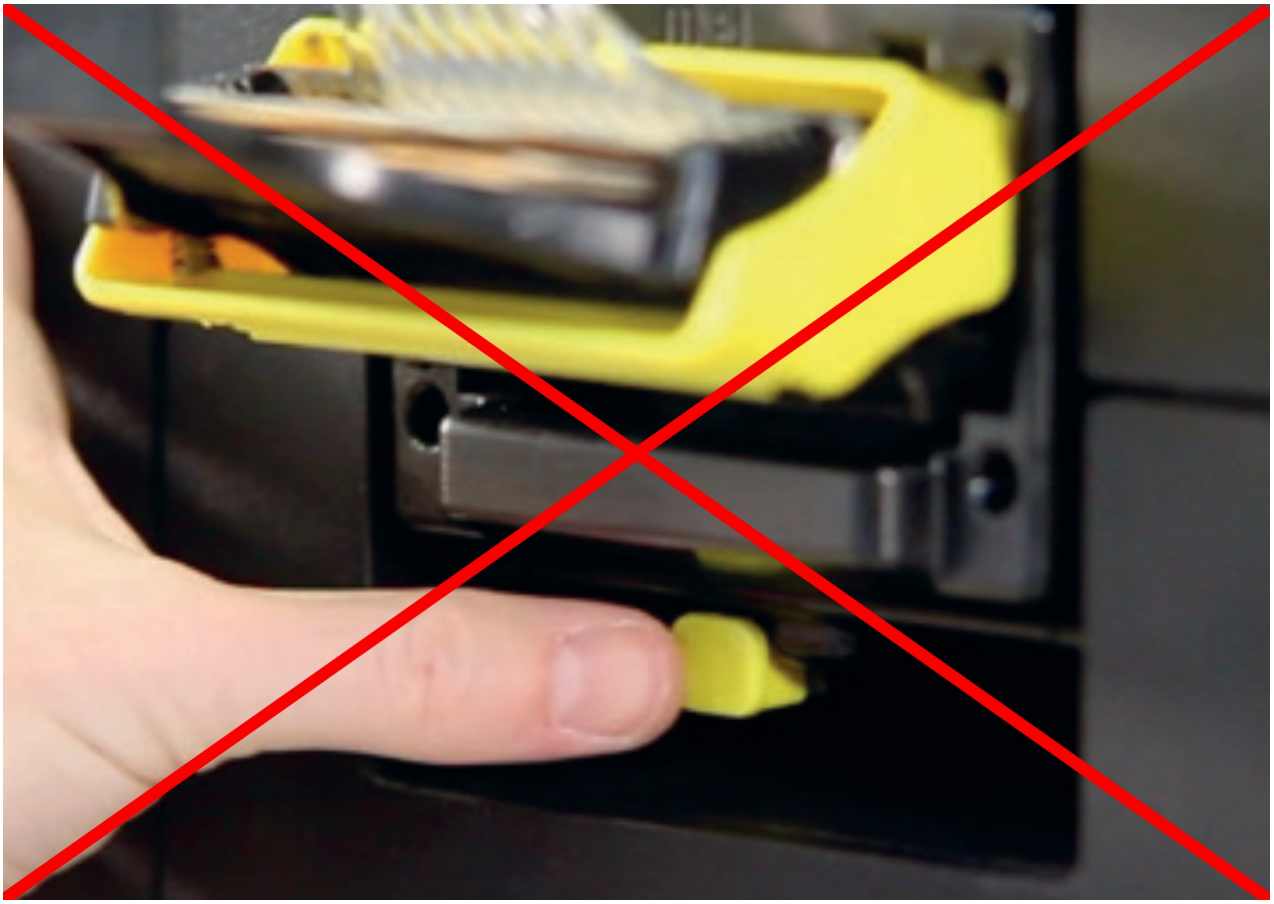

Insert bundles of 30/35 banknotes.

Align the bills on the right.

Do not touch the yellow button while depositing.

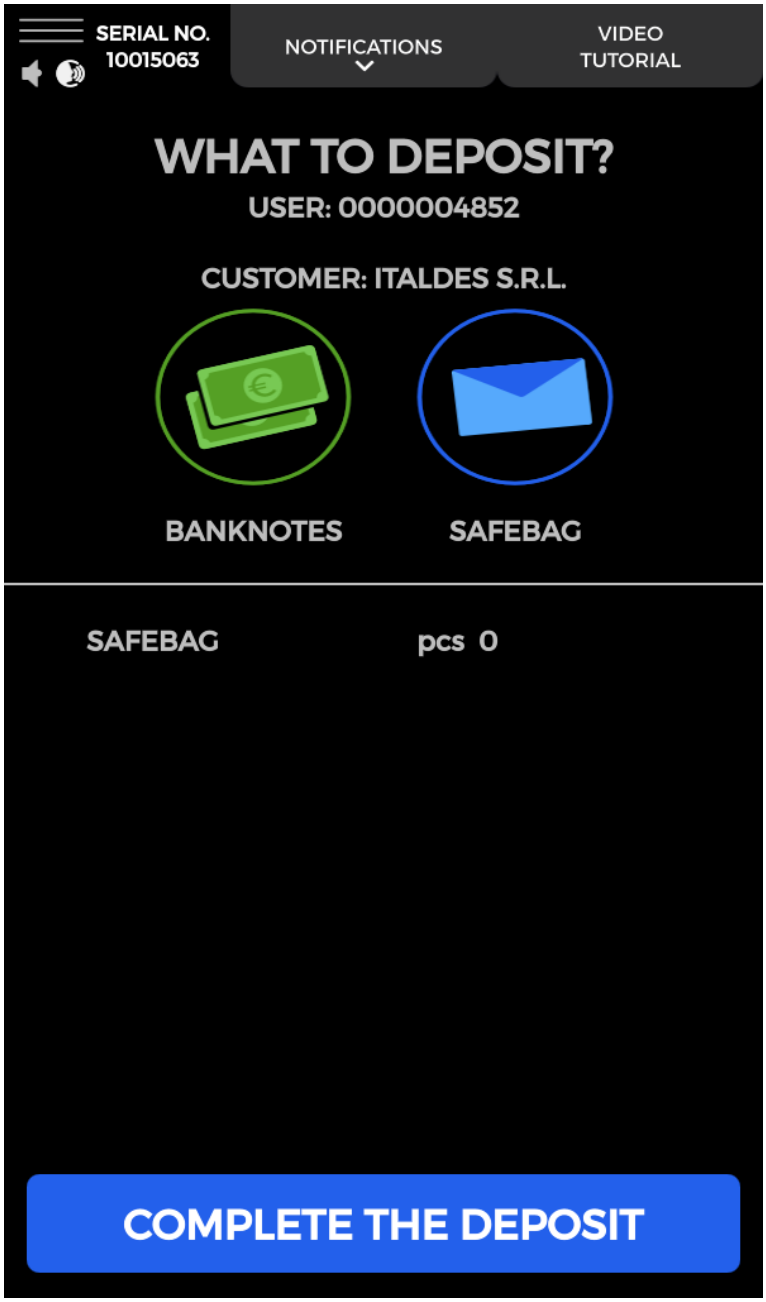

Do not insert additional banknotes during deposit.

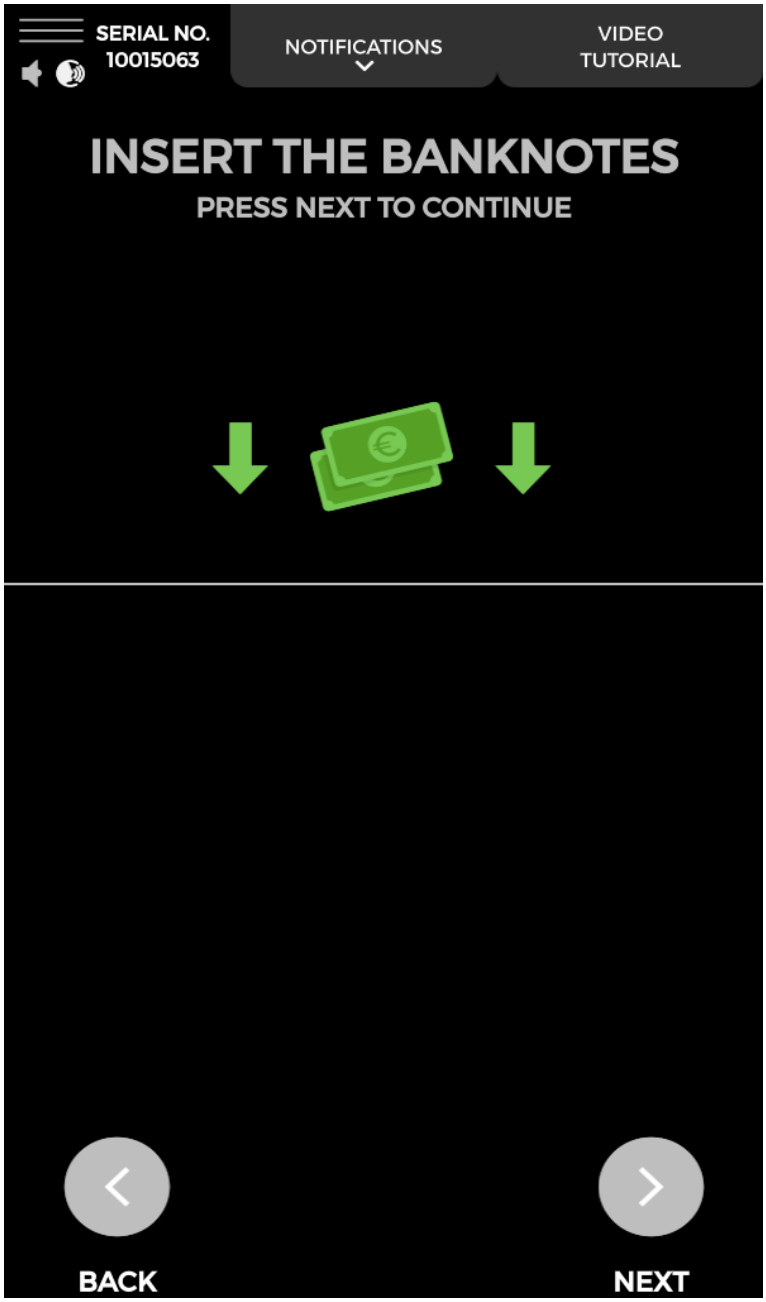

Banknote deposit

Start Deposit

Before starting your deposit, please follow the **instructions for Banknote Placement.** After placing the banknotes on the acceptor tray, tap the **BANKNOTES button on the monitor.**

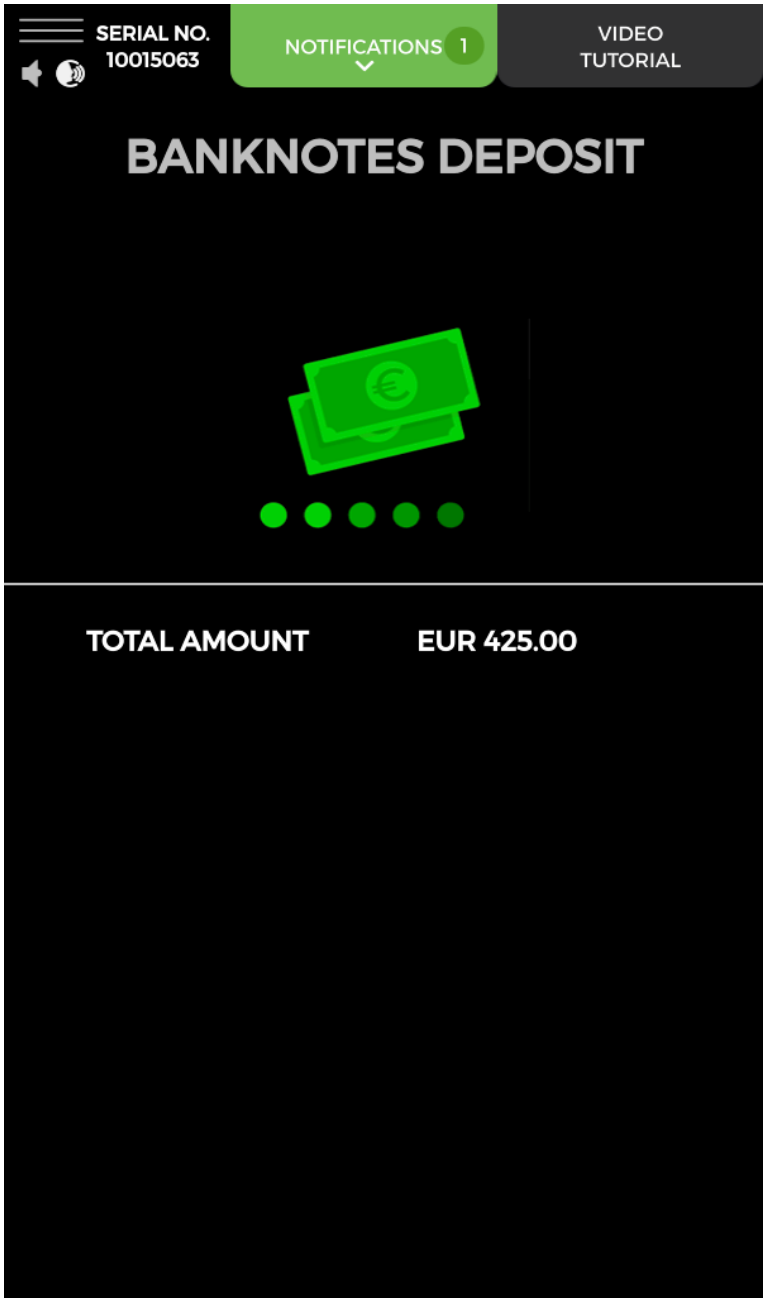

If the acceptor detects the presence of banknotes on the tray, it will automatically begin counting them; otherwise, the screen will display "INSERT BANKNOTES." and after placing them on the tray, you will have to press the "**NEXT**" button.

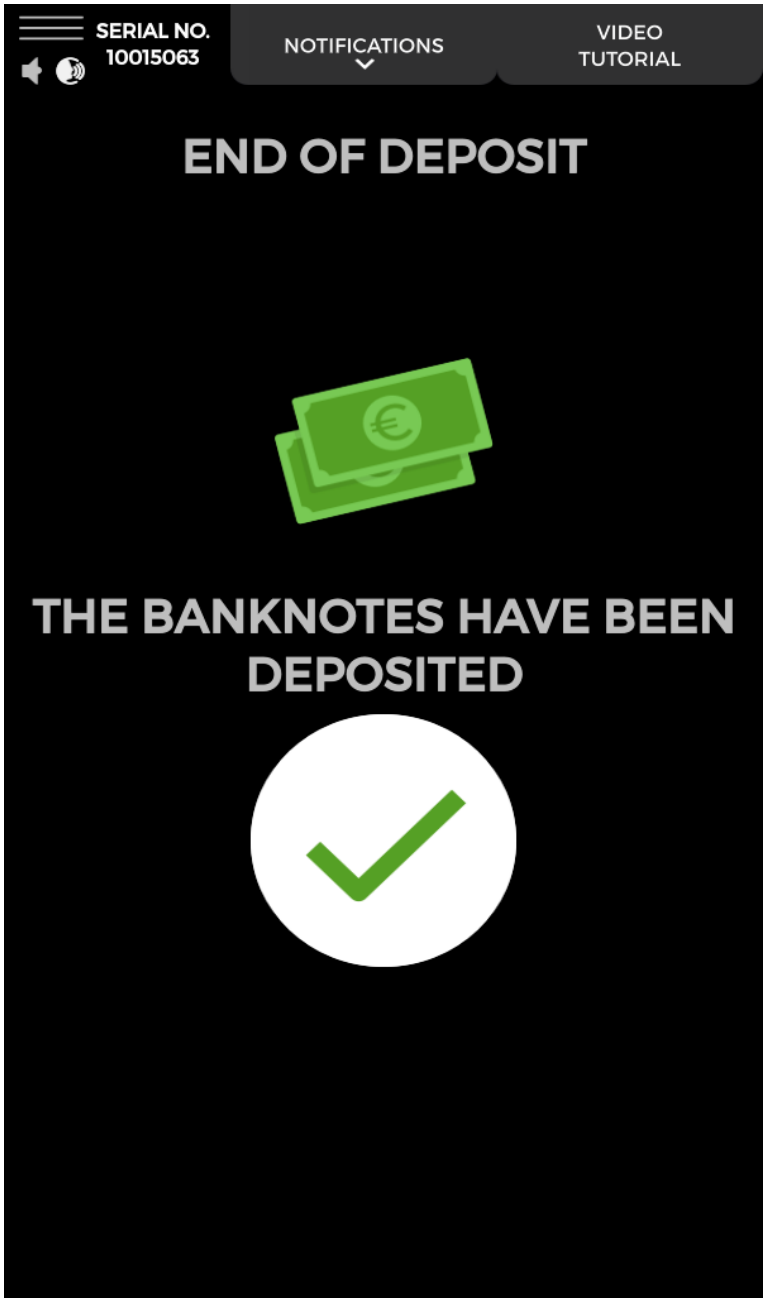

Deposit in progress

For each deposit of banknotes inside the safe, the successful operation is confirmed on the monitor.

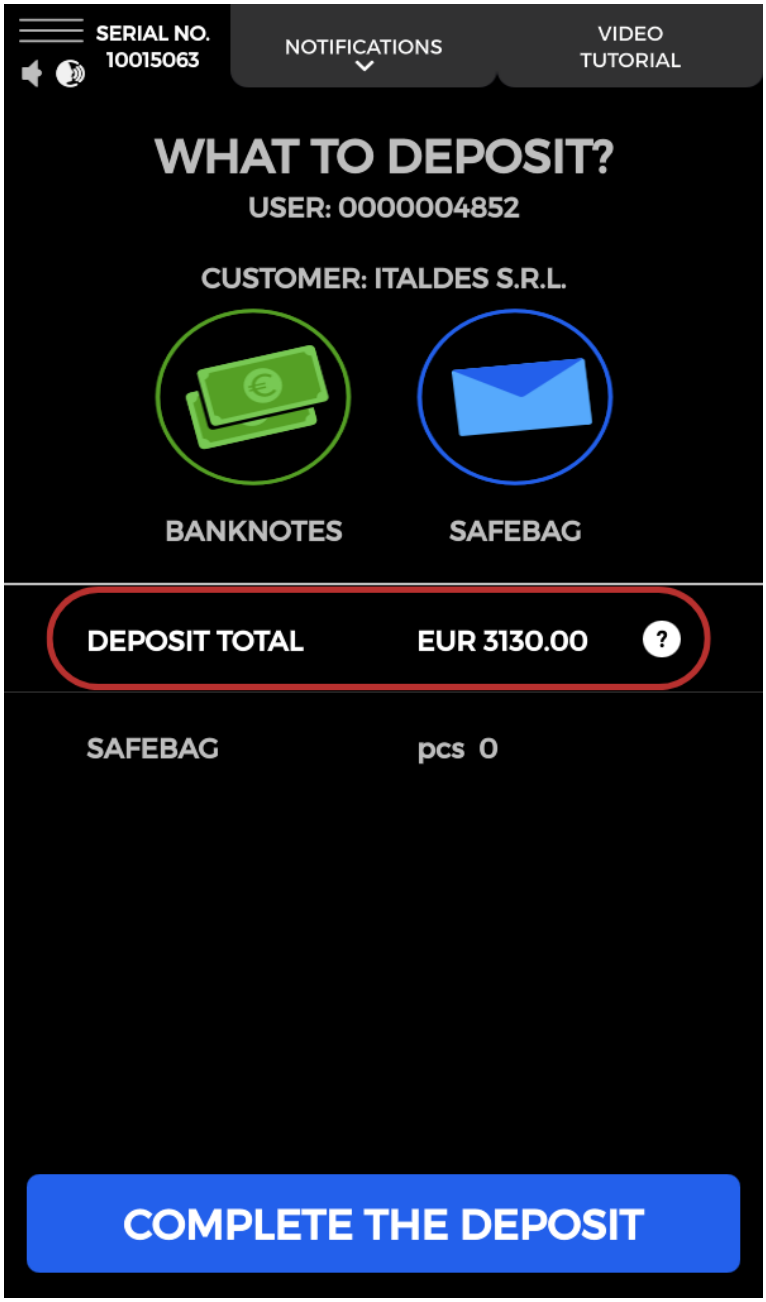

Deposit Finished

The total amount released into the vault during a deposit session will be referred to as the "**DEPOSIT TOTAL**."

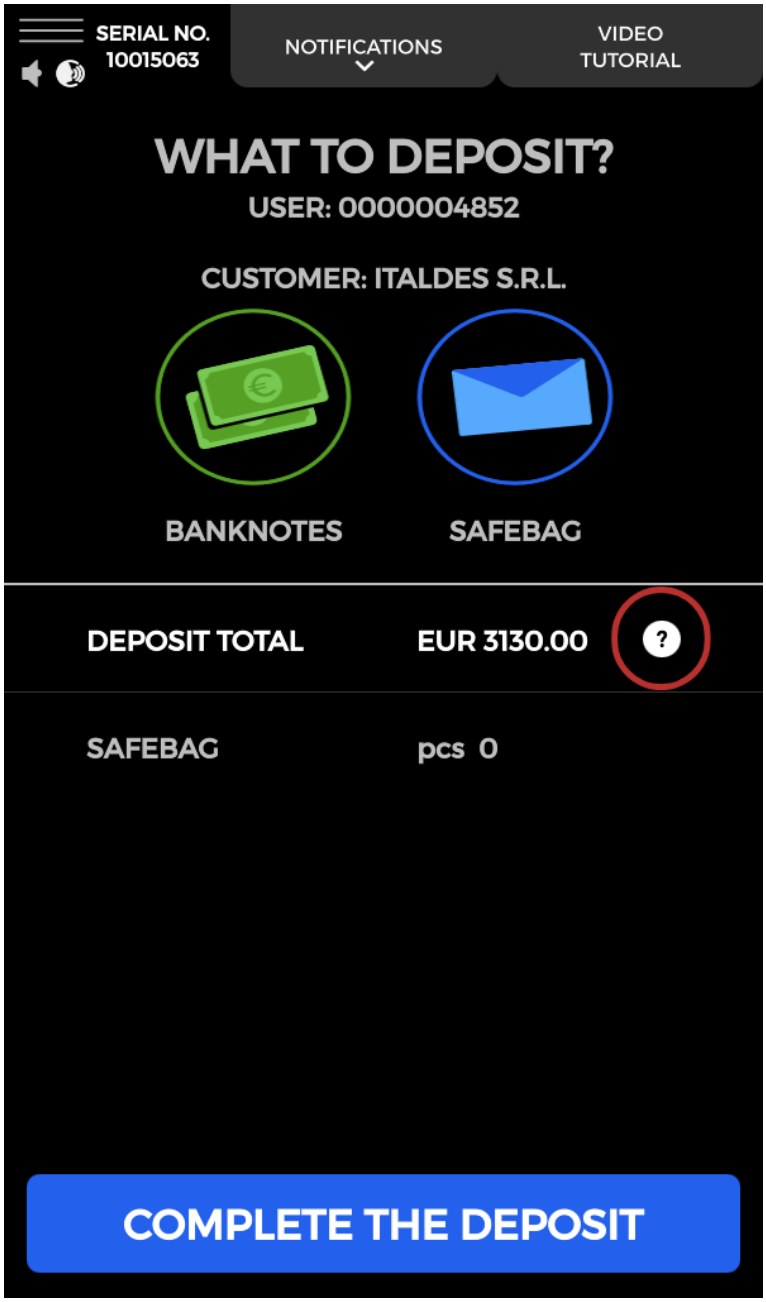

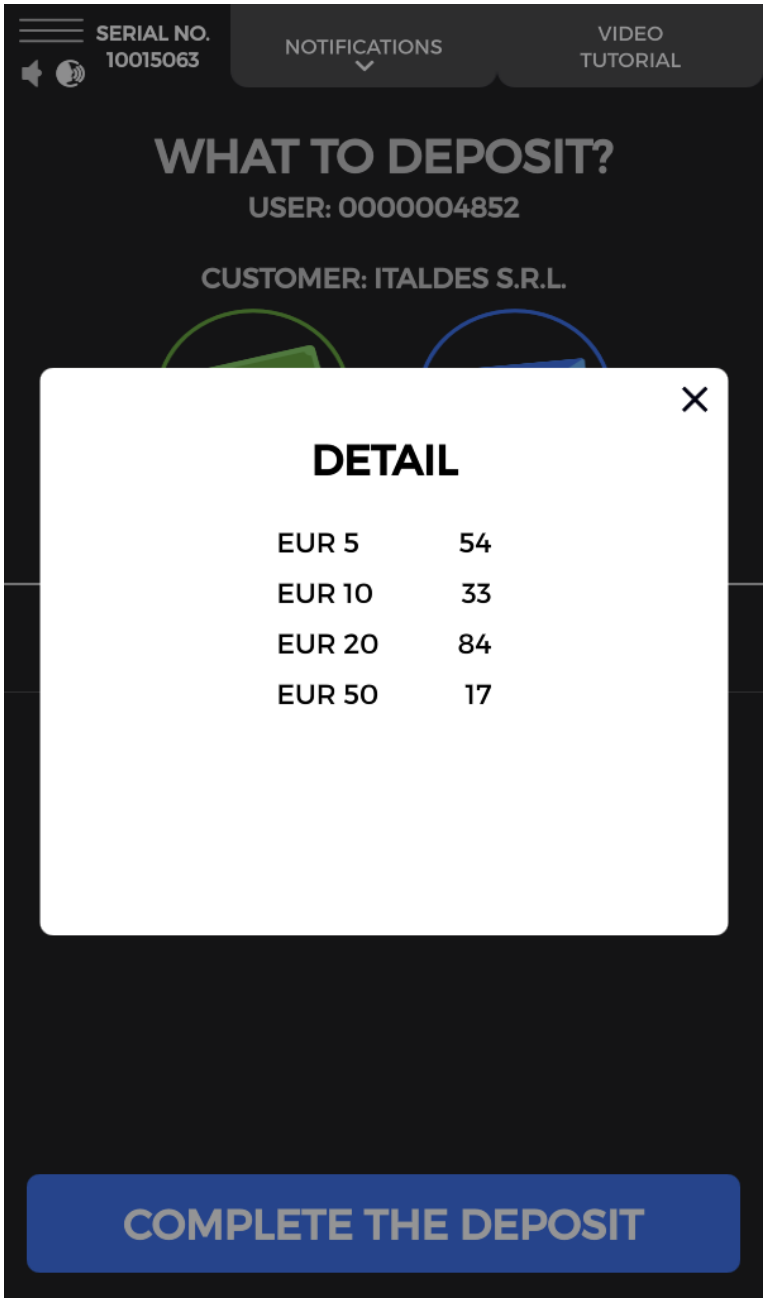

Once you've completed a deposit, you can continue depositing by tapping the**BILLS** button again.

Deposit Details

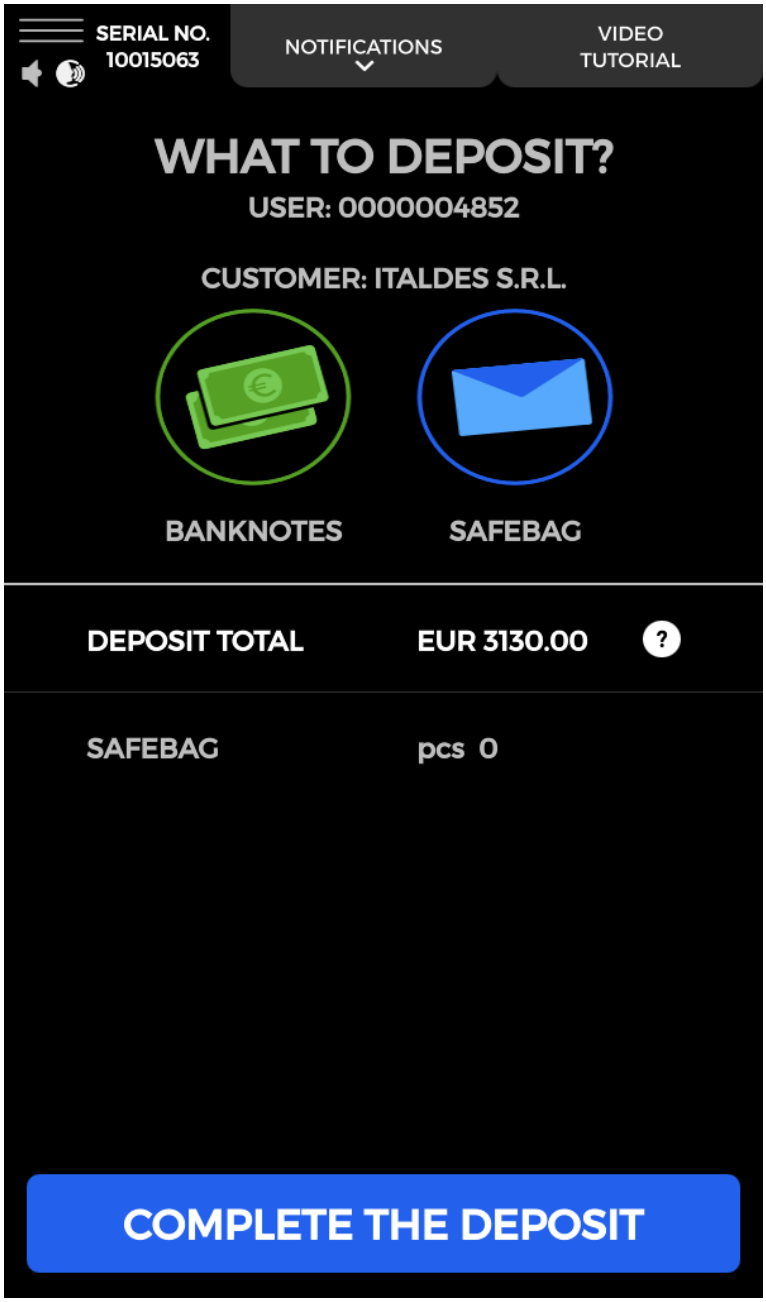

Once you have deposited securities, you can tap the **question mark [?]** to check the number of banknotes deposited, broken down by denomination.
